**DETAILED ACTION**

***Continued Examination Under 37 CFR 1.114***

A request for continued examination under 37 CFR 1.114, including the fee set forth in 37 CFR 1.17(e), was filed in this application after final rejection. Since this application is eligible for continued examination under 37 CFR 1.114, and the fee set forth in 37 CFR 1.17(e) has been timely paid, the finality of the previous Office action has been withdrawn pursuant to 37 CFR 1.114. Applicant's submission filed on January 8, 2008 (which included claims of 11/9/07) has been entered.

The following is an examiner's statement of reasons for allowance:

Prior Art does not show a concrete pumping having an auxiliary axle system mounted on the rear end of the truck, the system including a pair of spaced wheel mounts pivotally connected to pivotable wheels, wherein the auxiliary axle system (which would include all elements in the system in their entirety) is always maintained forward of a furthest rearward point of a concrete hopper carried on the rear end of the truck in any position of the axle system, excluding any point a boom on the concrete truck is able to reach.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
